

Unicheck

Allow Student Resubmissions

Instructors may allow individual and bulk resubmissions.

To allow individual resubmission from the Unicheck Assignment, click the Resubmit icon next to similarity score.

To allow bulk resubmission, select the boxes of all the relevant students or select the top checkbox to select all students, then click Bulk resubmit.

Tip: Resubmission functionality allows instructors and students to arrange convenient workflows, such as draft submissions or multiple revisions.

In the list of student submissions, initial submissions are marked as attempt #1.

The screenshot displays the Unicheck interface for 'Assignment 36' (100 pts). At the top, there are buttons for 'Settings', 'Original files', 'Bulk resubmit', and 'Generate reports'. A search bar labeled 'Search by student' is on the right. Below the buttons, a table lists student submissions. The first row shows a submission by James Bedwell (b.james...) with a status of 'Opened' and a similarity score of '-'. The second row shows a submission by Stephanie Barnes (S.Bar...) with a status of 'Report ready', a similarity score of '92.64%', and a submission date of '04/24/19, 4:36:31 PM'. A red arrow points to the 'Bulk resubmit' button, and another red arrow points to a circular resubmit icon next to Stephanie Barnes' submission. Below the main table, there is a detailed view of the submission attempt, showing 'ATTEMPT 1', 'DOCUMENT Test Assignment', 'ID 9528917', 'STATUS Report ready', 'SIMILARITY 92.64%', and 'SUBMISSION DATE 04/24/19, 4:36:31 PM'.

After resubmission is enabled, the status of respective submission(s) changes to Resubmit.

All previous attempts are stored, and you can access Unicheck Reports and originally submitted files for any of the attempts. For resubmissions, Unicheck does not compare the latest attempt against previous attempts.
